

THE SCENE OF FIRST BATTLE

City of Vera Cruz Where Mexicans and Americans Met

NATURAL FEATURES OF THE TOWN

Explain Loss of Life by the Attacking Force

Washington, April 23.—Natural features of the city of Vera Cruz and the character of the buildings along the water front there were largely responsible for the loss of life of American blue-jackets and marines who landed there Tuesday.

This opinion was expressed yesterday by government officials who are familiar with the captured city.

Between the bay and the line of two-story buildings which face it, is a vacant space of about 300 yards of beach open to fire from house tops.

The customs house, which can only be reached by crossing the open space, stands in this solid group of buildings at the end of one of the two long piers, where the foreign merchant ships land.

Like most of the structures in the southern countries, the flat-roofed buildings with their high coping form veritable fortifications, from which rifle-men may pick off those below in comparative safety. As the blocks are practically solid, quite a formidable troop can be mustered on the top of a square of buildings.

It was from this protected position that the Mexican troops opened fire on the blue-jackets and marines.

The remainder of the city, with its brick and plaster houses and its straight asphalted streets, makes a pretty picture. Trees are scarce, their growth having been discouraged since the yellow fever epidemic, but the principal avenue which stretches the entire length of the town and out into the suburbs, is lined with cocoa palms.

The principal business street as well is bordered by rows of palms and almond trees.

Along the wharves, the buildings are not unimpressive structures, uniformly brick, two storied and flat-roofed.

This natural fortification officials who have recently returned from Vera Cruz believe, saved the lives of many of the blue-jackets and marines as well as Mexicans, although the landing division was made up of some of Uncle Sam's best marksmen.

The scattered and disorganized resistance on the part of the Mexicans is, in the opinion of these officials, proof of the utterly helpless condition of the Mexican troops.

The Mexican people, as a whole, one of these officials declared, are not unfriendly to the United States soldiers and the various demonstrations which have occurred can be traced directly to petty functionaries and police.

Many of the inhabitants of Vera Cruz, unlike most Mexican cities, carry a strong taint of black blood and the negro type is common among the citizens, though the negro himself is rare.

HUERTA WON'T GET ARMS SHIPMENT

German Envoy Says That the Captain Will Follow the Orders of Admiral Fletcher.

Washington, April 23.—"Huerta will not get the cargo no matter what position is made of the German ship's consignments of arms to the Mexican government," said Count von Bernstorff, the German ambassador, following a half hour's conference with Secretary of State Bryan and John Lind yesterday.

"My information says that the liner is still in the outer harbor of Vera Cruz and that the captain is willing to do anything that Admiral Fletcher requests. I think the matter will be settled amicably."

MASSACHUSETTS LOYAL

The Old Bay State Stands by the President.

Boston, April 23.—A resolution expressing loyalty to the president and assuring him of the support of Massachusetts in upholding the dignity of the American people was unanimously adopted in the house of representatives yesterday on a viva voce vote.

The resolution was offered by Representative L. R. Sullivan of Boston as a substitute for one introduced by him Tuesday endorsing the action of the president.

SEES AN EXAMPLE.

A Message to Americans in Hagerty's Death, Sister Says.

Boston, April 23.—"I hope his death will not only count for the service of his country, but that it will be a message to Americans to respect the men more who are ready to fight and die for them," said Miss Minnie Hagerty after she had been informed of the death of her brother, Corporal Daniel A. Hagerty, at Vera Cruz Thursday.

Hagerty's home was in Cambridge, where his father, three sisters and three

If You Need a Medicine You Should Have the Best

Although there are hundreds of preparations advertised, there is only one that really stands out pre-eminent as a remedy for diseases of the kidneys, liver and bladder. Dr. Kilmor's Swamp-Root is not recommended for everything. A sworn certificate of purity is with every bottle. You may receive a sample bottle of Swamp-Root by mail. Address Dr. Kilmor & Co., Bangor, N. Y., and enclose ten cents. For sale at all drug stores in bottles of two sizes—size and \$1.00, also mention The Barre Daily Times.

HAVE GOOD HEALTH

Take Hood's Sarsaparilla, the Old Reliable Spring Tonic

Don't let the idea that you may feel better in a day or two prevent you from getting a bottle of Hood's Sarsaparilla to-day from any drug store and starting at once on the road to health and strength.

When your blood is impure and impoverished it lacks vitality, your digestion is poor, and all the functions of your body are impaired.

Hood's Sarsaparilla is the greatest known blood tonic. It will build you up quickly, then any ailment. It gives strength to do and power to endure. It is the old standard tried and true all-the-year-round blood purifier and enricher, tonic and appetizer. Nothing else acts like it, for nothing else has the same formula or ingredients. Be sure to ask for Hood's get it to-day, and begin taking it at once.—Adv't.

brothers reside. He was a native of North Brookfield. Before his enlistment in the marine corps he had worked as a street conductor and as a machinist.

E. A. Gishburne of Quincy, the electrician who was seriously wounded in the fighting at the Mexican port, was born in Providence, R. I. His parents are dead.

The detail of marines ordered Wednesday to leave the navy yard here for Philadelphia, to join the regiment being mobilized there, prepared to start this afternoon. The battleships Virginia, Georgia and Nebraska are expected to sail for Mexico today. Work was rushed yesterday to put into commission the gunboat Castine, which has been ordered on Mexican duty.

WILL DOUBLE INCOME TAX.

War Expenses to Make Call for Large Sums of Money.

Washington, April 23.—It will cost the government millions to blockade the Mexican ports. Should the land as well as the naval forces be used against Mexico the cost would be double and probably trebled.

When the Spanish war broke out Congress appropriated an emergency fund of \$50,000,000. If eventualities are forced in this instance Congress would undoubtedly place a big appropriation at the disposal of President Wilson.

In 1898, following the authorization of \$50,000,000, Congress revised the internal revenue laws. Should there come a demand for emergency appropriations at this time Congress would undoubtedly revive the stamp act of 1898 and probably increase the rates of the income tax law.

HEARTILY SUPPORTING WILSON.

"Duty of Every American to Stand by President," Says Taft.

New York, April 23.—William H. Taft received the news of the stirring events at Vera Cruz at the home of his brother, Henry W. Taft. He was on his way to Washington, whence he will go to Hampton institute to deliver an address. After Mr. Taft had been given the full details of the fighting at Vera Cruz, he was informed that a statement from him would undoubtedly be of public benefit.

"If you think that," said Mr. Taft, "I will gladly make it. I deeply deplore the killing and wounding of our marines and blue-jackets at Vera Cruz. It is unnecessary for me to say with what abhorrence I view war, but I am heartily supporting the president in this matter. It is the duty of every American to stand by Mr. Wilson on an occasion like this, when we have become involved in a quarrel with another country."

\$500,000 FOR REFUGEES.

Wilson Asks That Amount to Bring the Americans from Mexico.

Washington, April 23.—In a special message to both houses of Congress yesterday afternoon the president asked an appropriation of \$500,000 for the bringing of Americans out of Mexico.

Opposed Resolve Justifying Wilson.

Here are the 13 senators, all Republicans, who voted against the foreign relations committee's report "justifying" the president in using armed force in Mexico.

Brandegee, Connecticut.
Bristow, Kansas.
Dillingham, Vermont.
Gallinger, New Hampshire.
La Follette, Wisconsin.
Lippitt, Rhode Island.
Lodge, Massachusetts.
Norris, Nebraska.
Oliver, Pennsylvania.
Root, New York.
Smoor, Utah.
Weeks, Massachusetts.
Works, California.

PENROSE AND REED IN CRASH

Former Stirs Bitter Colloquy by an Attack on Reading of "Volunteer" Telegram.

Washington, April 23.—A bitter clash occurred in the Senate yesterday afternoon between Senators Reed of Missouri and Penrose of Pennsylvania, which had for its subject the Mexican war policy.

Senator Penrose took occasion, when Senator Shafroth presented a telegram from a Colorado volunteer regiment seeking Mexican service, to object to such telegrams. He said many Pennsylvania fire companies wanted to enlist, but it was "beneath the dignity" of the Senate to have such telegrams read.

Senator Reed got the transcript of the record a little later, read it and denounced the utterances of Senator Penrose.

"When the dignity of the Senate of the United States can be impaired, impeached, or insulted by the offer of American citizens who tender their lives in the service of their country this will be a very strange kind of body we sit in," said the Missouri senator.

He asked if it could possibly impair the dignity of the Senate that American citizens offered to shoulder guns and meet death on the battlefield.

Senator Reed said he could understand such a "snarl" from an army contractor expecting to grow wealthy in traffic in American blood, but not from a senator. He called it an insult, and said he would protest against all such utterances.

Senator Penrose replied in a scathing speech, in which he said Senator Reed was guilty of "demagoguery."

"I can understand the extraordinary bravery of some of these people," he said, "after a year and a half of watchful waiting, with hundreds of Americans in Mexico killed, with women outraged, with property destroyed, and without any sympathy from the secretary of

state or the national administration—or, as far as I am aware, of any Democratic senator."

He called the war on Mexico wicked and unnecessary—a war on a helpless and defenseless nation, and said he objected to "mock heroics." He criticized bitterly the policy of the state department and of the administration toward Mexico for months as ignorant and incompetent. He said our foreign policy had earned the contempt of the world, and declared it would take something more than "mock heroics on the part of men 7,000 miles from the seat of trouble to restore respect for this country."

NEWEST DESTROYER LAUNCHED.

Granddaughter of Admiral McDougal Is Sponsor.

Bath, Me., April 23.—The newest member of Uncle Sam's navy, the torpedo destroyer McDougal, was launched here yesterday.

Miss Marguerite Le Bretos of Boston, Washington and San Francisco, named the destroyer as the boat started on the short trip to deep water.

The new boat is named after Admiral McDougal, who was Miss Le Bretos' grandfather. Miss Le Bretos is the sister of Lieutenant Commander Le Bretos of the Mayflower.

POLICE GUARD FOR WEBBER.

Whitman Will Protect Witness During Becker Trial.

New York, April 23.—District attorney Whitman has conferred with his assistants, Groehl and Delehanty, on the Becker case, discussing Mr. Whitman's belief that "Bridge" Webber in Passaic on Monday night.

After the conference yesterday it was said that there was nothing new in the case. Webber asked Mr. Whitman for a detective to guard him when he came to this city to testify at the trial. A man will be assigned to that job by the district attorney.

It is expected that Webber will return to Passaic on Wednesday afternoon immediately after appearing here.

Carl Dresser does not seem to be in a mood to be frank, so Mr. Whitman is going to let him remain in the Tombs until he "cools off." The new attorney for Becker may ask for further time. The case is scheduled for trial April 28.

Mr. Whitman, it is understood, will not make strong objection if Becker's counsel asks for a postponement until the Monday following.

HONOR TITANIC'S ENGINEERS.

10,000 People Witness Unveiling of Memorial at Southampton.

Southampton, England, April 23.—The unveiling yesterday of a memorial to the engineers of the Titanic, was witnessed by 10,000 people. The ceremony was performed by Sir Archibald Denny, the Scottish shipbuilder, and an address was delivered by Albert W. Swain, United States consul here. The memorial is a granite monument surmounted by a bronze angel bearing a laurel wreath.

Plant of Nicol Granite Co. at Quincy Destroyed.

Quincy, Mass., April 23.—The sheds of Nicol's Granite company at Quincy were destroyed by fire of supposed incendiary origin early yesterday morning.

Several monuments in process of construction were damaged by the smoke and heat. The loss is estimated at \$2,500.

MAHONEY PLEADS NOT GUILTY.

Attorney Asks That a Commission Be Appointed to Investigate Sanity.

New York, April 23.—Michael P. Mahoney, who attempted to assassinate Mayor Mitchell, but instead wounded Corporation Counsel Frank L. Polk, pleaded not guilty when arraigned yesterday. His attorney asked that a commission be appointed to inquire into the prisoner's sanity. The court took the matter under advisement.

Trouble for Caruso.

New York, April 23.—Announcement was made for Enrico Caruso at the Hotel Knickerbocker that the tenor singer involved in litigation due to an affair of the heart and it is reported that he has been sued by Miss Mildred Moffett for \$100,000 for an alleged breach of promise of marriage.

The Great Crest of the Sierra.

Mount Whitney, the highest point in the United States, is not an isolated mountain peak like Mount Shasta or Mount Rainier, but is the loftiest point in the great California crest or enormous sawtooth ridge of the Sierra Nevada, including many eminences almost as high. Mount Whitney is 14,500 feet above sea level. Among these of slightly lesser height are Mount Russell, less than a mile distant, 14,190 feet; Mount Williamson, 14,284 feet; Mount Muir, 14,025 feet; Mount Langley, 14,042 feet; Mount Barnard, 14,005 feet, and Mount Tyndall, 14,025 feet. The most distant of these is less than 6 miles away.

By a strange freak of nature the lowest point of dry land in the United States is less than 80 miles from the highest. The lowest point is in Death Valley and is 276 feet below sea level. It is said that from this point Mount Whitney can be easily seen on a clear day.

"CASCARETS" FOR LIVER; BOWELS

No Headache, Biliousness, Upset Stomach, Lazy Liver or Constipated Bowels by Morning.

Get a 10-cent box. Are you keeping your bowels, liver, and stomach clean, pure and fresh with Cascarets, or merely forcing a passage every few days with salts, cathartic pills, castor oil or purgative waters? Stop having a bowel wash-day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels. A Cascaret to-night will make you feel great by morning. They work while you sleep—never gripe, sicken or cause any inconvenience, and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have headache, biliousness, coated tongue, indigestion, sour stomach or constipated bowels. Cascarets belong in every household. Children just love to take them.—Adv't.

PLANS FOR FARM LOANS

Real Estate is Good Security, if Unencumbered

ANNOUNCEMENT BY TREASURY DEPT.

Applies to Member Banks of New Currency System

Washington, April 23.—Official announcement was made at the treasury department yesterday that national banks, members of the new financial system, legally may make loans secured by real estate, provided such real estate is improved farm land and unencumbered by a prior lien. The property must be located in the same federal reserve district as the bank making loan; the loan must not exceed 60 per cent. of the actual value of the property and for a period not longer than five years. Another provision made is that the total of such loans by any bank must not exceed one third of its time deposits and must in no case exceed one-fourth of the capital and surplus of the bank. Comptroller Williams yesterday sent to each national bank a letter setting out the restrictions under which real estate loans may be made and directing that to each note secured by farm land a certificate be attached stating the facts of the transactions by the officers making the loan.

GODDARD'S PROSPECTS CONSIDERED GOOD

Strong Team Will Be Put on the Diamond Against Italian Athletic Club.

The intentions of the coaching staff of the Goddard seminary baseball squad are to assemble on the seminary campus in the game against the reputable Italian athletic club on Saturday afternoon one of the strongest aggregations of ball tossers that ever donned the red and white colors. The baseball squad now numbers about thirty and for the past few weeks has been making good progress with the spring practice. In years past one of the biggest flaws in the baseball scheme at Goddard has been the fact that the team never displayed championship form until late in the season. Coaches Kurtz and Hoernle are in hopes to have the team playing winning ball when the regular preparatory school schedule is opened.

Lawton Witt of Winchendon, Mass., last season's sensational infielder, is captain of this season's team. Enrolled at the seminary are Fenwick, Ford, Keefe, Cosby, Tierney, Witt and Gilman of last year's nine. Fortunately this nucleus of players is greatly enhanced by the addition of considerable baseball talent by this year's acquisition of new students. Ford and Keefe, twirlers on last year's team, are still in school and are expected to give an excellent account of themselves this spring. The season is strengthened this spring by the addition of Hastings of Dorchester, Mass., who has gained a favorable distinction in preparatory school ball in Massachusetts. The bulk of the backstop work during the earlier part of the season will be given to Gray, the former St. Johnsbury academy athlete, who was recognized as one of the best catchers in the state last season. Gilman and Washburn are close contenders for the third sack. In the outfield will be found Tierney, Lameri, Farrell, Pitkin and Plumpeides vying for honors.

Frank Chances has completed negotiations with the Buffalo International for Frank Truesdale, a second baseman. He will go to New York in exchange for Frank Gilhooley, the young \$10,000 recruit purchased last fall from Montreal. Truesdale played second base with the St. Louis Americans back in 1910. He is a crack fielder and hits around .250. Chance will replace Hartwell with Truesdale this week. Chance has been weak all season at second. For weeks past he has been angling for some reputable keystone man and considers he has filled the bill with Truesdale.

Earl Yingling in his first appearance as a Red did not live up to expectations. He was a false alarm. The first three men he opposed he fanned, but then gave way to a bombardment, being first to retire during the middle of the encounter.

Harvard defeated Columbia in soccer football on Monday by the score of 1 to 0. Bob Storer, the football captain, was in the Harvard lineup.

Frank Gotch, the world's champion heavyweight wrestler, is not a one-man sport. He is a .asp-shooter of considerable ability.

Dick Lewis, the former Harvard catcher, who went south with the Braves, has signed to play with the Fitchburg club of the New England league.

Frank Gotch, the French heavyweight champion, has signed articles to meet Gunboat Smith at London during the month of June.

Shono Collins, the Boston boy, is regarded as one of the best hitters of the season in the American league. Collins is holding down an outfield position with the White Sox, still the clean-up position in the batting order.

SPORTING NOTES.

Frank Chances has completed negotiations with the Buffalo International for Frank Truesdale, a second baseman. He will go to New York in exchange for Frank Gilhooley, the young \$10,000 recruit purchased last fall from Montreal. Truesdale played second base with the St. Louis Americans back in 1910. He is a crack fielder and hits around .250. Chance will replace Hartwell with Truesdale this week. Chance has been weak all season at second. For weeks past he has been angling for some reputable keystone man and considers he has filled the bill with Truesdale.

Earl Yingling in his first appearance as a Red did not live up to expectations. He was a false alarm. The first three men he opposed he fanned, but then gave way to a bombardment, being first to retire during the middle of the encounter.

Harvard defeated Columbia in soccer football on Monday by the score of 1 to 0. Bob Storer, the football captain, was in the Harvard lineup.

Frank Gotch, the world's champion heavyweight wrestler, is not a one-man sport. He is a .asp-shooter of considerable ability.

Dick Lewis, the former Harvard catcher, who went south with the Braves, has signed to play with the Fitchburg club of the New England league.

Frank Gotch, the French heavyweight champion, has signed articles to meet Gunboat Smith at London during the month of June.

Shono Collins, the Boston boy, is regarded as one of the best hitters of the season in the American league. Collins is holding down an outfield position with the White Sox, still the clean-up position in the batting order.

Otto Deiningner and Flynn, a first baseman, former Northern league players, are with the Montreal International club this season.

DANDRUFF SURELY DESTROYS THE HAIR

Makes It Dull, Brittle, Lifeless, and Causes It to Fall Out

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to destroy it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will be silky, fluffy, lustrous, soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.—Adv't.

BARRE WOMAN'S CLUB.

Its Activities Described in Christian Science Monitor.

A brief summary of the work of the Barre Woman's club during its eight months of existence was given in Tuesday's issue of the Christian Science Monitor, as follows, together with a cut of the president, Mrs. F. J. Martin.

"The Barre Woman's club is only eight months old, but it has been unusually active. It has leased new playgrounds for the children and has secured an instructor from Boston to take charge. A course of lectures has been given on various subjects of education and general interest. Musical entertainments are in progress and classes in cooking and domestic economy have been started. The club considers that the spirit of democracy is its most noteworthy achievement. All classes and nationalities of Barre mingle at its functions."

"This club is managed by an executive board, consisting of the officers, directors and chairmen of departments. There are departments of education, music, art, home economics and civics. The civics department is the one in which every member is expected to be a worker and in which most interest is displayed by outsiders."

"The department of education has Mrs. H. H. Jackson at its head. Its work has been done largely through lectures attended by members and their friends. A course in parliamentary law now is being carried on, and the members find it helpful and enjoyable. A nature study class is being arranged for this spring."

"The music department under the direction of Mrs. E. W. Bisbee has just completed a series of parlor musicales. Members are permitted to bring their friends, thus extending the advantages beyond the borders of the club. Several recitals of a high order of merit have been given by the department in Howland hall, which is the clubroom. Two more are scheduled for this spring."

"None of the departments is more popular than that of home economics. Mrs. C. N. Benedict directs. Capable lecturers have presented their best thoughts for the instruction of the club in this branch of woman's work, and proficient cooks have given demonstrations of up-to-date cooking, among them being one from Simmons college, Boston, and another from the University of Vermont."

"The civics department is in charge of Mrs. W. F. Shepard. As soon as the club was organized this department took up the work of the playground on Berlin street, which was established a few years ago by the civic federation, an organization of women now merged in the new club. A trained instructor from Boston was secured to direct the play of the young children."

"In addition to this large tract of land on Ayers street was leased for a term of years and converted into a playground and athletic field for the older children, the instructor dividing his time between this place and the one on Berlin street. It is proposed to have two instructors, a man and a woman, this summer."

"The Ayers street ground has been used this winter as a skating rink, the city permitting the fire department to flood it for the children. Tennis courts for the older girls were laid out at Elmwood park, which is easily accessible from Washington street, Highland avenue and the Currier park section of the city."

"This 'Elmwood' the ladies hope to make one of the beauty spots of Barre. A beginning has been made by laying out walks and flower beds, erecting arbors, planting shrubbery, vines and blossoming plants."

"Two sewing schools have been in progress during the fall and winter. One of these is in dressmaking for older girls and the other in elementary needlework for girls under 14 years of age. The latter has about 75 pupils. These schools doubtless will be open through the year."

"There is a balance in the treasury of the lecture committee which shows how well the public has appreciated the excellent lecture and entertainment course which the Woman's club has presented in the opera house during the winter. This was considered rather a hazardous enterprise financially, for the reason that the talent engaged was from the best now on the lecture platform and consequently expensive and requiring large patronage to support it, but as the object was the elevation of public taste, not revenue, the committee considered it could not do otherwise than 'plunge' and hope for a safe emergence. The result has fully justified its judgment and fulfilled its hopes."

"The historical committee has been fitting up a room which is expected to be of great value to the community. The club discovered that many articles of value to the historian were being destroyed or carried away from the state because no place had been provided in Barre where such objects could be stored in safety. The room and the articles will be arranged in such a manner that they may be viewed by students desiring to know something of early New England domestic customs."

"This room is located on the first floor of the city building. As soon as the cases now being made are finished, the committee will issue a call for loans or gifts of historical material for the collection. Much has already been promised and more is expected to come when the public is aware of the movement."

"The club's present membership is 252."

AMERICAN LEAGUE

Yesterday's Games

At Boston—Boston 9, Philadelphia 9 (game called at end of 8th inning by mutual agreement).
Batteries—Beckett, Counse, Foster, Kelley and Cady; Houck, Wyckoff, Plank and Schang.

At New York—Washington 2, New York 1. Batteries—Ayers, Engle and Henry; Warhop and Sweeney.

At St. Louis—Detroit 4, St. Louis 2. Batteries—Dauss and Stange; Hamilton and Grosin.

At Cleveland—Chicago 7, Cleveland 0. Batteries—Russell, Scott and Schalk; Blanding, Collamore, Billings and Carisell.

TRAVERS AND OUMET PLACED ON SCRATCH

In Rating List of the United States Golf Association for 1914—Number Listed

This Year Is Reduced to 227

New York, April 23.—The handicap list for this year, issued by the United States golf association, contains the names only of those players who are eligible for competition in the national championship tournament with handicaps of 5 strokes better. Last year the eligible list included those who were allowed six strokes and there were 442 on the list. The new rule, which was adopted at the annual meeting last January limiting the eligible to five strokes, has reduced the number to 227.

Jerome D. Travers, the national champion, and Francis Oumet, national open champion, are placed together on scratch. Charles Evans, Jr., who reached the semi-final stage in last year's championship tournament, stands alone with a handicap of one. J. G. Anderson, the runner-up last year, together with W. J. Travis, a former champion, and Warren K. Wood, the western champion, are rated at two strokes each. In the next division with three strokes each are four former champions, E. M. Byers, H. C. Egan, W. C. Fowner, Jr. and R. A. Gardner. Findlay S. Douglas, who won the amateur honors sixteen years ago, is rated at four strokes, and L. M. James, winner in 1902, has a rating of five. In all there are 62 with four strokes or better, and 165 with five strokes each.

MAIDEN ERLAGH THE WINNER.

Sol Joel's Five-Year-Old Captures City and Suburban Handicap at Epsom.

London, April 23.—Sol Joel's five-year-old Maiden Erlagh, won the city and suburban handicap of \$10,000 at Epsom yesterday. Candytuft was second and Braxted third. Twenty started.
